

## Reference Letter

**Applicant's Last Name:** Tatla

**Applicant's First Name:** Anoop Singh

**Program:** Civil & Environmental Eng

**Degree:** Civil & Environmental Eng

**Reference:** Hardeep Rai

**Email:** hsrai@gndec.ac.in

**Term:** 2016 Summer Graduate

	Lower 50%	Top 50%	Top 25%	Top 10%	Top 5%	Top 2%	No good basis for judgement
Please compare the candidate's Intellectual ability with other students of the applicant's level of training					X		
Please compare the candidate's Originality of thought with other students of the applicant's level of training					X		
Please compare the candidate's Aptitude for scientific research of scholarly work with other students of the applicant's level of training				X			
Please compare the candidate's Ability to express him/herself orally with other students of the applicant's level of training					X		
Please compare the candidate's Ability to express him/herself in writing with other students of the applicant's level of training					X		
Please compare the candidate's Initiative with other students of the applicant's level of training					X		
Please compare the candidate's Perseverance with other students of the applicant's level of training							

**How long have you known the candidate, and in what capacity? Give approximate dates.**

For about one year, as Mentor.

**If you have recommended previous students to us for graduate study, please rank this candidate in relation to them in overall aptitude for scholarly activity.**

**Please write or copy and paste a reference letter below to elaborate on the assessment or provide other relevant comments.**

As the Dean of Testing and Consultancy Cell at Guru Nanak Dev Engineering College, Ludhiana, I am writing with great pleasure to recommend Anoop Singh to application of Masters in your distinguished university.

He came to my association during his final year training semester, acceptance to which require high level of enthusiasm, motivation and determination, which I found in him. He has shown keen desire of learning and in-depth understanding of concepts. I was contended with his ability to grasp and perceive new concepts. It is also worth mention the level of confidence and diligences that Anoop demonstrated as a trainee were extraordinary. His presentations were well prepared and well spoken that even a layman to engineering could understand. He exhibits clear and analytical ideas which are again an asset for his desire to take up higher studies.

Not only he could work in a team but could pick up a project on his own and deliver exceptional results. He worked on the various project among which a few included checking and designing of a sewage treatment plant and in situ soil testing of the under construction open air theatre at GNDEC and a State Power grid. He along his peers was the few that voluntarily worked on the DGPS showing his interest in the field and ability to venture beyond the scope of subject syllabi.

At the end I would like to summarise Anoop Singh as a promising student that is confident and intelligent. I believe his ability to carry out independent projects are among the best in his ages. With your most distinguished program, I believe he will further advance in his understanding in the field and gain more valuable experience in his practices. Therefore, I strongly recommend him for admission, without reservation, and would appreciate your most favourable consideration for his application.

Prof. (Dr.) Hardeep Singh Rai  
Professor of Civil Engineering and  
Dean, Testing and Consultancy Cell
